

Raising The Bar For Integrated Payments

Impexium and CardConnect are joining forces to bring seamlessly integrated payment processing to the software you know and love. By taking advantage of CardConnect's BluePay Gateway offering, you will soon be able to streamline and secure the way you accept payments, all while reducing your processing fees. Keep reading to learn more!

SEAMLESS PAYMENT ACCEPTANCE

You can now manage your association and accept credit card payments within Impexium, providing you with a single source solution and simplified reconciliation.

SECURITY YOU CAN COUNT ON

Innovative security features like point-to-point encryption and tokenization provide the ultimate data breach protection and PCI scope reduction, giving you peace of mind for each and every transaction you process.

TRANSACTION MANAGEMENT + REPORTING

Transactions can be managed through CardPointe with detailed reports for greater efficiency and cost savings. You can even save customer credit card information in a secure vault to use at a later date for additional transactions.

24/7 COMPREHENSIVE SUPPORT

With dedicated support teams available around the clock, no matter when you have questions, CardConnect will be there to answer them.

TRANSPARENT PRICING

Not only do you get your funds the next day, you'll know exactly what you're paying for each month with low, transparent pricing and easy-to-read statements.

SIGNING UP IS SIMPLE AND EASY

Direct boarding and simple applications mean you're less than 48 hours away from being boarded onto the CardConnect platform.
